2808 Arbor St.
Ames, IA 50014
(515) 290-4661

Education:

Iowa State University, Ames, IA
Major: German
Bachelor of Arts, Fall 2005

Dortmund University, Dortmund, Germany
2002-2003, Study abroad through the International Student Exchange Program

Technical Skills:

- **Languages:** Extensive knowledge of HTML, XHTML, XML, CSS, PHP, SQL, ASP, Visual Basic, and Delphi; comfortable with JavaScript, Python, C#, C++, Ruby, and XSLT.
- **Operating Systems:** Unix/Linux, Windows (3.1, 9x, XP), MacOS X, and DOS

Related Experience:

Business Operator April 2007 – June 2008
Cycles Recycling Ames, IA.

- Involved in all aspects of running a curbside recycling company: intense physical labor, customer service, billing, purchases, route planning, and hardware maintenance.
- Managed a total of four employees: hiring, training, payroll, schedules, etc.
- Created a database and web-based interface to keep track of customers, billing, and routes.
- Created a website for the company.

Webmaster and Chief Technologist Nov. 2004 - May 2005
Fallon for Governor Campaign Des Moines, IA.

- Redesigned campaign website in time for the gubernatorial announcement rally, making it accessible and much more useful.
- Set up email, ensured data security and proper operation of campaign computers.

Conversion Analyst May 2004 - Feb. 2005
RuffaloCODY Ames, IA.

- Worked with data transformations using Oracle. Wrote and maintained documentation.

C# Developer and Web Developer Oct. 2003 - April 2004
Iowa State University's Virtual Reality Applications Center Ames, IA.

- Using C#, co-developed a trust-based file sharing and searching application.

Visual Basic Intern and Intranet Development Intern Summer 2002
MemberWorks (now called "Vertrue") Omaha, NE.

- Used Visual Basic to successfully rebuild a system monitoring program for monitoring server response times across the company network from Montreal, Houston and Omaha and send notifications when necessary.
- Designed and implemented a program which used census data to associate a gender with first names. This data was used to support the company's marketing division.
- Created an Intranet site to simplify filing reports, using HTML, ASP and JavaScript.

Assistant to System Support Specialist Spring 2002
Iowa State University Physics Department Ames, IA.

- Administered web pages and gained exposure to Java Server Pages.

- Researched and evaluated software programs to determine suitability of use.
